

PERENNIAL

Common Milkweed

Asclepias syriaca

MILKWEED BEETLE

Arcadia
NATIVES

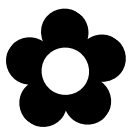

RED MILKWEED BEETLE

- Grows well in poor soil
- Blooms mauve, June-August
- Spreads rapidly by rhizomes
- Important host plant
- Sweet scented blossoms

HELPFUL TIPS:

A deep taproot makes it drought tolerant. May also be used for erosion control. Flowers in 2-3 years from seed.

COMPANIONS: Tall Coreopsis, Rudbeckia, Joe Pye Weed, Goldenrod, Early Sunflower, Culver's Root, Butterfly Weed, Mountain Mint, Little Bluestem
