

PERENNIAL

Small Yellow Wild Indigo

FROSTED ELFIN

Baptisia tinctoria

Arcadia
NATIVES

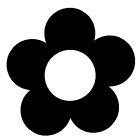

- Late blooming Baptisia
- Blooms yellow, June-Aug
- Shrubby appearance
- Host for several butterflies
- Produces one seed per pod

HELPFUL TIPS:

Flowers best in full sun. Can take several years to achieve full height. Deep roots make it drought tolerant over time.

COMPANIONS: Wild Petunia, Phlox, Anise Hyssop, Purple Coneflower, Bee Balm, Indiangrass, Northern Blazing Star, Black-Eyed Susan, Blue-Eyed Grass

Late Summer Blooms

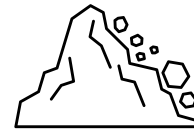

Deer Resistant

Pollinated by Bees (nectar for Butterflies)

Host Plant for Lepidoptera

Erosion Control

Very Slow To Establish

Height: 2 feet
Spacing: 2-3 feet

Soil: Avg, Rich, Loam, Sand
Med-Wet, Med, Med-Dry, Dry
