

PERENNIAL

Purple Coneflower

Echinacea purpurea

NATIVE
RANGE

FINCH FEAST
GARDEN PLAN

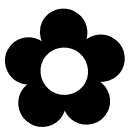

- Historically used in medicine
- Blooms purple, July-Sept
- Very attractive to pollinators
- Can reseed itself prolifically
- Goldfinches relish the seeds

HELPFUL TIPS:

Deadhead spent flowers early to encourage another flush of blooms in the fall. Leave seed heads over winter for wildlife.

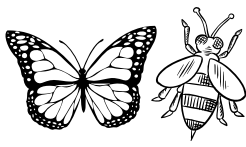

COMPANIONS: Bee Balm, Coreopsis, Beardtongue, Butterfly Weed, Rudbeckia, Blazing Star, New England Aster, Little Bluestem, Mt. Mint, Prairie Dropseed
