

PERENNIAL

Robin's Plantain

Erigeron pulchellus

WAVY-LINED
EMERALD MOTH

Arcadia
NATIVES

- Use as informal groundcover
- Blooms white, May-June
- Early food for pollinators
- Tolerates heat & humidity
- Performs poorly in rich soil

HELPFUL TIPS:

Prefers part sun. Basal leaves stay green even after flower stalks die. Spreads by stolons & seeds to form small colonies.

COMPANIONS: Slender False Foxglove, Bottlebrush Grass, Tall Thimbleweed, Rock Harlequin, Poke Milkweed, Columbine, Pearly Everlasting, Violets
