

PERENNIAL

# Spotted Joe Pye Weed

## *Eutrochium maculatum*

JOE PYE WEED  
ULTIMATE GUIDE

Arcadia  
NATIVES

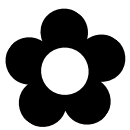

- Prefers full sun & moist soil
- Blooms pink, July-Sept
- Butterfly/pollinator magnet
- Mature plants have speckled dusky purple stems

### HELPFUL TIPS:

Typically does not need to be staked. May overwhelm small landscapes if the growing conditions are ideal (sun/wet).

**COMPANIONS:** *New England Aster, Boneset, Blue Mistflower, Rose Milkweed, Blue Vervain, Wingstem, Helens Flower, Ironweed, Tall Bellflower, Garden Phlox*

Mid-Summer  
to Early Fall
