

Northern Maidenhair Fern

Adiantum pedatum

NATURAL GARDEN
INSPIRATION

Arcadia
NATIVES

- Prefers moist (not soggy) soil
- Delicate, light green foliage
- Fan-like frond arrangement
- Useful on woodland slopes
- Spreads slowly by rhizomes

HELPFUL TIPS:

May go dormant if soil becomes too dry. Can make a good replacement for non-native hostas. Tolerates heavy shade.

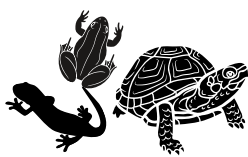

COMPANIONS: Wild Geranium, Foamflower, Zig Zag Goldenrod, White Wood Aster, Jacob's Ladder, Golden Alexanders, Woodland Phlox, Wood Poppy
