

PERENNIAL

Goldenseal

Hydrastis canadensis

CULTIVATION & GROWING GUIDE

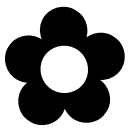

Arcadia
NATIVES

- Rare woodland species
- Blooms white, May-June
- Root used in herbal medicine
- Over-harvesting has led to reduced native populations

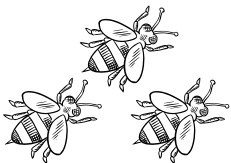

HELPFUL TIPS:

In the garden, divide/transplant in autumn. Mulch heavily with leaf litter. It is unethical & damaging to dig plants from wild habitats!

COMPANIONS: Wild Ginger, Blue Cohosh, Wood Poppy, Maidenhair Fern, Virginia Bluebells, Jack-in-the-Pulpit, Wild Blue Phlox, Longleaf Bluets, Trillium
