

Violet Wood Sorrel *Oxalis violacea*

BONAP MAP
NATIVE RANGE

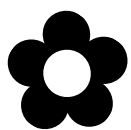

- Clover-like leaves are edible & have a sour/zesty flavor
- Blooms pink/purple, April-May
- Goes dormant by mid-summer
- Often reblooms in autumn

FUN FACTS:

Produces a scale-covered bulb that sends out runners to form colonies. Leaves & flowers open in sunshine and fold at night or on cloudy days.

COMPANIONS: Spotted Bee Balm, Prairie Dropseed, Pussytoes, Stiff Goldenrod, Lady Fern, Rudbeckia, Red Columbine, Foxglove Beardtongue, Wild Blue Phlox
