

PERENNIAL

# Cutleaf Coneflower

## *Rudbeckia laciniata*

INSECT VISITORS  
OF R. LACINIATA

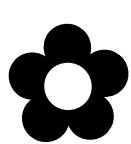

- Woods, meadows, riverbanks
- Blooms yellow, July-Oct
- Attractive along fence rows
- Colony-forming; rhizomatous
- AKA Wild Golden Glow

### HELPFUL TIPS:

Reaches full height in moist soil, shorter in drier locations. May overwhelm small landscapes. Prefers part sun. Long blooming.
