

PERENNIAL

Cup Plant

Silphium perfoliatum

GROWIT BUILDIT
GROWING GUIDE

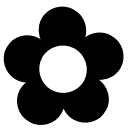

Arcadia
NATIVES

- Late summer butterfly magnet
- Blooms yellow, July-Sept
- Naturally feeds birds in fall
- Can spread vigorously
- Borders, prairies, large gardens

FUN FACTS:

Large leaves are fused around the stem. Wildlife can drink from water collected in the leaf cups. Taller in wet soil, shorter in dry.

COMPANIONS: Bog Goldenrod, Common Boneset, Cutleaf Coneflower, Tall Bellflower, Swamp Rose, Joe Pye, Swamp Rose Mallow, Blue Mistflower, Ironweed, Swamp Aster
