

PERENNIAL

Blue-Eyed Grass

Sisyrinchium angustifolium

PLANT
FEATURE

Arcadia
NATIVES

- Excellent grass-like groundcover
- Blooms blue, May-June
- Spreads via rhizomes & seeds
- Flowers open/close in day/night
- Tolerates competition well

FUN FACTS:

Not a true grass (member of the iris family). Flowers have "runway" markings that guide pollinators. AKA Sassy Grass.
