

PERENNIAL

Eastern Bee Balm

Monarda bradburiana

NATIVE
RANGE MAP

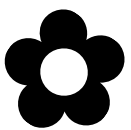

- Considered a superior bee balm
- Blooms pale pink/white, early June
- Very resistant to powdery mildew
- Enjoys part shade and well-drained soil; adaptable to sun

HELPFUL TIPS:

Has a naturally short growth habit, but stems may become floppy. Divide every 3-4 years to maintain vigorous blooms.

COMPANIONS: *Prairie Dropseed, Butterfly Milkweed, Nodding Onion, Pussytoes, Wild Petunia, Lyre-Leaf Sage, Northern Blazing Star, Beardtongues, Gray Goldenrod*
