

PERENNIAL

# Yellow Giant Hyssop

## Agastache nepetoides

RANGE MAP

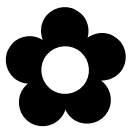

- Prefers part sun & loamy soil
- Blooms cream in summer
- Bitter leaves deter browsing
- Flowers are not showy
- Spreads slowly by rhizomes

### FUN FACTS:

Foliage lacks minty fragrance. Lower leaves can be 6" long and 3" across. Flower spikes may grow up to 16" in length!

*COMPANIONS: American Bellflower, Parasol Whitetop Aster, Lion's Foot, Blue Mistflower, Smooth Blue Aster, Sweet Goldenrod, Bottlebrush Grass, Poke Milkweed*
