

PERENNIAL

Threadleaf Bluestar

Amsonia hubrichtii

RANGE
MAP

- Three season interest
- Blooms pale blue, early summer
- Bright golden fall color
- Best effect planted en masse
- Deer resistant; drought tolerant

HELPFUL TIPS:

Native to Ouachita Mountains of Arkansas and Oklahoma. To minimize staking and for best flowers, plant in full sun.

COMPANIONS: Rose Milkweed, Appalachian Beardtongue, Lanceleaf Coreopsis, Blue Wild Indigo, Bee Balm, Pale Purple Coneflower, Joe Pye Weed, Clustered Mountain Mint
