

Eastern Star Sedge

Carex radiata

VERSATILE SEDGES
FOR LAWN & GARDEN

Arcadia
NATIVES

- Dense semi-evergreen clumps
- Found on moist woodland slopes
- Starry floral spikelets in spring
- Performs best in moist shade
- Finely textured; can be mowed

HELPFUL TIPS:

Flowering stems may lay flat & look untidy after blooming.
Clumps form a hollow center over time. Divide to encourage fullness.

COMPANIONS: Coral Bells, Christmas Fern, Lion's Foot, Solomon's Seal, Great Waterleaf, Amethyst Shooting Star, Meehan's Mint, Honewort, Aniseroot, Goldenseal, Bishop's Cap
