

Yellow Passionflower

Passiflora lutea

VARIEGATED
FRITILLARY

Arcadia
NATIVES

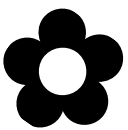

- Thrives in moist to wet soil
- Blooms pale yellow in summer
- Bears small purple fruit in fall
- Supports specialist bee
- Critically imperiled in PA & KY

HELPFUL TIPS:

Small 1" flowers are produced in abundance. May bloom up to two months. Not a heavy vine; won't damage structures.

OTHER NATIVE VINES: Virginia Creeper, Crossvine, Dutchman's Pipe, Thicket Bean, Climbing Milkvine, American Bittersweet, Vasevine Leatherflower, Purple Passionflower
